Dedicated to the Education and
Treatment of Functional and Aesthetic
Disorders of the Face and Jaws*

May 14, 2021

Dear Colleague,

We at Metropolitan Craniofacial Center have had the honor of providing oral surgical care to our community for over 50 years. The trust that you have continually placed in us by your patient referrals is one of the highest compliments one can pay. We, in turn, have strived to provide the highest level of care with a safe, compassionate approach to every patient.

After long consideration as to how best shape the future of our practice, we have decided to merge Metropolitan Craniofacial Center with other oral and maxillofacial surgeons who share the same commitment to superior patient care while maintaining the highest level of responsiveness to our dental colleagues.

As of May 1, 2021, Metropolitan Craniofacial Center has joined Riverside Oral Surgery. Founded by Dr. Jason Auerbach in 2007, Riverside Oral Surgery has earned an unparalleled reputation for providing full scope, comprehensive & technologically progressive oral surgical services, featuring state-of-the-art facilities and a team of professionals whose focus compliments our philosophy of patient care. Of all the oral surgical practices we considered partnering with, Riverside Oral Surgery differentiated itself among them not only in its attention to detail and focus on the optimal patient experience but the fact that it is still owned and operated by the surgeons themselves, without any other private equity or DSO involvement. This independence enables us to continue to practice on our own terms with the patients' best interest always the top priority. We anticipate exciting changes in our offices which we expect to enhance our ability to care for your patients

A great deal has changed in dentistry since we began our practice over five decades ago. What has not and will not change moving forward is our dedication to you and your patients. We are honored and excited to be part of Riverside Oral Surgery, which will ensure continuity of those timeless values. Riverside Oral Surgery won't change the values here at Metro, but rather enhance the ability to provide our patients full scope oral and maxillofacial services. We are looking forward to our continued partnership of patient care in the years to come and are excited to introduce you to the Riverside Oral Surgery team.

You can still reach our amazing team at 973.736.7616, and please visit us on the web at riversideoralsurgery.com

Sincerely,

Cyrus J. Amato, D.D.S.
